# Alex Chen - Curriculum Vitae (2024 Software Engineering)

Alex Chen | Computer Science Senior | alex.chen@student.edu | github.com/alexchen-dev

Education: B.S. in Computer Science, Magna Cum Laude, GPA 3.89. Relevant Coursework: Distributed Systems, Database Implementation, Operating Systems, Algorithm Analysis, Machine Learning, Computer Networks.

Technical Skills: Python, Go, C++, Rust, TypeScript, FastAPI, PostgreSQL, SQLite, ChromaDB, Redis, Docker, Kubernetes.

Experience: Software Engineering Intern at CloudScale Infrastructure (Summer 2023). Built high-throughput telemetry ingestion pipeline using Go and gRPC, reducing latency by 35%. Implemented distributed tracing across microservices.

Undergraduate Research Assistant at Systems Lab (2022 - Present). Researched LSM-tree compaction heuristics and SSD write amplification mitigation under Professor Vance. Co-authored workshop paper on adaptive cache partitioning algorithms.
